Ages in Years

- 0-4: 13
- 5-9: 14
- 10-14: 7
- 15-19: 3
- 20-24: 2
- 25+: 5

Developmental and Behavioral Conditions

- ADHD: 38
- Anxiety: 32
- Autism: 4
- Intellectual disability/developmental delay: 20
- Language delay: 3
- OCD: 3

Neurological Problems

- Tic disorder: 7
- Spinal cord cyst: 1
- Small head size: 13
- Seizures: 11
- Movement disorder: 5
- Low muscle tone: 40
- Large head size: 2
- High muscle tone: 9
- Coordination problems: 6
- Cerebral palsy: 4

Gastrointestinal Problems

- Celiac disease: 28
- Constipation: 14
- Diarrhea: 3
- GERD: 2

Notes:
- Graphs show counts of individuals in each category. Individual participants may appear in more than one category if they report multiple conditions.

How to Participate

The information in this report is made possible by the active participation of the ASXL3 community! Progress for individuals in your community with ASXL3 is shown below - log in to your SimonsSearchlight.org dashboard today to check for new surveys and tasks. Your data could hold the clues geneticists need to find answers.

**STEP 1** Sign up online
**STEP 2** Provide your genetic lab report
**STEP 3** Share your important medical history
**STEP 4** Fill out surveys
**STEP 5** Provide a blood sample if you are interested
**STEP 6** Update us every year

Information Spotlight: Quality of Life

The Quality of Life Inventory is a scientific survey where we asked caregivers to describe how their family member with ASXL3 responds to life experiences.

It measures quality of life by looking at the following areas: physical health, psychological well-being, social relationships, leisure, and independence.

These graphs reflect the percentage of people who reported "Often" or "Very Often" for each question.

### Health & Well-being

- **Has energy for daily activities**: 95%
- **Is in good health**: 95%
- **Is alert and aware**: 81%
- **Sleeps well**: 57%

### Feelings & Emotions

- **In a good mood**: 90%
- **Smiles**: 100%
- **Expresses happiness using body language**: 76%
- **Laughs or giggles**: 67%
- **Unsettled for no reason**: 10%
- **Displays aggression**: 0%
- **Feels upset or angry**: 10%
- **Withdrawn, low mood**: 0%
- **Intentionally self harms**: 0%
- **Dislikes changes in routine**: 33%
- **Displays anxiety or agitation**: 10%

The questionnaire was given to family members of people 2 years and older.

21 people with ASXL3 are shown.
